

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-23-606	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, the postoperative recurrence-free survival (RFS) data of resectable ALK-rearranged non-small cell lung cancer patients will be shared for further studying the factors influencing the prognosis of these patients. Our sample size is currently the largest.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the RFS data may be updated over time.
7	To whom will you share the data?	The researchers engaged in the field of lung cancer, especially those focusing on ALK rearrangement.
8	For what type of analysis or purpose?	For analysis to study the factors influencing the prognosis of resectable ALK-rearranged non-small cell lung cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 2231183@tongji.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
