

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tlcr-24-325">https://dx.doi.org/10.21037/tlcr-24-325</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The relevant pre- and intra-operative variables as well as the information on postoperative complications will be shared. The survival data will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, clinical study report, and analytic code will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Thoracic surgeons and medical oncologists who are interested in studies of sleeve lobectomy.
8	For what type of analysis or purpose?	For analyzing and evaluating the risk of postoperative complications among patients undergoing sleeve lobectomy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: changchenc@tongji.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
