

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-24-339	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, survival data will be shared, and we found that patients with SWItch/Sucrose NonFermentable Complex-deficient pulmonary neoplasms can benefit from immunotherapy and radiotherapy.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists who are interested in studies of SWI/SNF-d pulmonary neoplasms.
8	For what type of analysis or purpose?	For analysis of clinical characteristics of SWI/SNF-d pulmonary neoplasms.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ivorygoo@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
