

## PRISMA 2020 Checklist

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>TITLE</b>				
Title	1	Identify the report as a systematic review.	Page1/Line 32-34	Title page
<b>ABSTRACT</b>				
Abstract	2	See the PRISMA 2020 for Abstracts checklist (Table 2).	Page2/Line37-58	Title page
<b>INTRODUCTION</b>				
Rationale	3	Describe the rationale for the review in the context of existing knowledge.	Page3/Line37-58	Introduction/Paragraph1-6
Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	Page3/Line130-133	Introduction/Paragraph 6
<b>METHODS</b>				
Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	Page4/Line145-147	Methods/Paragraph1
Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	Page4/Line142-149	Methods/Paragraph1
Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	Table 2	Methods/Paragraph1
Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	Page4/Line145-153	Methods/Paragraph1
Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	Page4-5/Line149-150	Methods/Paragraph1
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	Page4-5/Line153-159	Methods/Paragraph1
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	Page4-5/Line159-164	Methods/Paragraph1

Study risk of bias assessment	11	Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process.	Page4-5/Line139-140 Table 1	Methods/Paragraph1
Effect measures	12	Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results.	Page6/Line163-164	Methods/Paragraph1
Synthesis methods	13a	Describe the processes used to decide which studies were eligible for each synthesis.	N/A	N/A
	13b	Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions.	N/A	N/A
	13c	Describe any methods used to tabulate or visually display results of individual studies and syntheses.	Page6/Line163-164	Methods/Paragraph1
	13d	Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used.	N/A	N/A
	13e	Describe any methods used to explore possible causes of heterogeneity among study results.	N/A	N/A
	13f	Describe any sensitivity analyses conducted to assess robustness of the synthesized results.	N/A	N/A
Reporting bias assessment	14	Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases).	N/A	N/A
Certainty assessment	15	Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome.	N/A	N/A
<b>RESULTS</b>				
Study selection	16a	Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram.	Figure 1	Results/Paragraph1
	16b	Cite studies that met many but not all inclusion criteria ('near-misses') and explain why they were excluded.	Page7/Line168-169	Results/Paragraph1
Study characteristics	17	Cite each included study and present its characteristics.	Table 3-7	Results
Risk of bias in studies	18	Present assessments of risk of bias for each included study.	Not performed	Not performed
Results of individual studies	19	For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots.	Table 3-7	Results

Results of syntheses	20a	For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies.	Not performed	Not performed
	20b	Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect.	N/A	N/A
	20c	Present results of all investigations of possible causes of heterogeneity among study results.	N/A	N/A
	20d	Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results.	N/A	N/A
Reporting biases	21	Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed.	N/A	N/A
Certainty of evidence	22	Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed.	N/A	N/A
<b>DISCUSSION</b>				
Discussion	23a	Provide a general interpretation of the results in the context of other evidence.	Page11Line282-310	Discussion/Paragraph1
	23b	Discuss any limitations of the evidence included in the review.	Page12/Line289-290	Discussion/Paragraph1
	23c	Discuss any limitations of the review processes used.	Page12/Line289-290	Discussion/Paragraph1
	23d	Discuss implications of the results for practice, policy, and future research.	Page12/Line302-310	Discussion/Paragraph1
<b>OTHER INFORMATION</b>				
Registration and protocol	24a	Provide registration information for the review, including register name and registration number, or state that the review was not registered.	The review was not registered	
	24b	Indicate where the review protocol can be accessed, or state that a protocol was not prepared.	Follow DOI in footnote	
	24c	Describe and explain any amendments to information provided at registration or in the protocol.	N/A	
Support	25	Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review.	Page18/Line422	
Competing interests	26	Declare any competing interests of review authors.	Page18/Line426	
Availability of data, code and other materials	27	Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review.	Available by request to the author.	

**Table 2 PRISMA 2020 for Abstracts checklist**

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>TITLE</b>				
Title	1	Identify the report as a systematic review.	Page2/Line32	AbstractParagraph1
<b>BACKGROUND</b>				
Objectives	2	Provide an explicit statement of the main objective(s) or question(s) the review addresses.	Page2/Line38-44	AbstractParagraph1
<b>METHODS</b>				
Eligibility criteria	3	Specify the inclusion and exclusion criteria for the review.	Page2/Line45-46	AbstractParagraph1
Information sources	4	Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched.	Page2/Line48-49	AbstractParagraph1
Risk of bias	5	Specify the methods used to assess risk of bias in the included studies.	Not performed.	AbstractParagraph1
Synthesis of results	6	Specify the methods used to present and synthesize results.	Page2/Line49	AbstractParagraph1
<b>RESULTS</b>				
Included studies	7	Give the total number of included studies and participants and summarise relevant characteristics of studies.	Page2/Line51	AbstractParagraph1
Synthesis of results	8	Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured).	Page2/Line51-62	AbstractParagraph1
<b>DISCUSSION</b>				
Limitations of evidence	9	Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision).	Page2/Line57	AbstractParagraph1
Interpretation	10	Provide a general interpretation of the results and important implications.	Page2/Line45-62	AbstractParagraph1
<b>OTHER</b>				
Funding	11	Specify the primary source of funding for the review.	Funded by the author	
Registration	12	Provide the register name and registration number.	N/A
