

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/fomm-21-45	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data about the improvement of sinus bone repair in rabbits in particular will be shared, using a biomaterial commonly used for this purpose, but in this study, in an unpublished way, associated with an antiresorptive drug.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested
5	When will data availability begin?	From the publication date
6	When will data availability end?	Five years within the publication date, since the established protocol for making the graft associated with the antiresorptive drug may be updated over time.
7	To whom will you share the data?	For implantologists, oral and maxillofacial surgeons, and healthcare professionals who are interested in studies on augmentation of bone formation.
8	For what type of analysis or purpose?	With the purpose of contributing with strategies to increase bone formation in patients who need sinus floor grafting, essential for their maxillofacial rehabilitation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: anaervolino@hotmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
