

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/fomm-22-67	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	YES
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The levels of cytokines in normal tissue and early and late stage of OSMF tissues will be shared and we have found a correlation between cytokine levels and stages of OSMF, which has been rarely reported in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and clinical study report will also be shared, if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date since the technique may be updated over time.
7	To whom will you share the data?	Oral Pathologists who are conducting extensive research on OSMF.
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: roopa.madalli@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
