

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jhmhp-22-43	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	Qualitative data are, by their nature, unable to be anonymized, especially in a small sample of pediatric faculty parents. This could potentially cause harm to our participants. Additionally, quantitative data are now paired with qualitative data, causing a similar challenge. We cannot share data to ensure protection of our respondents within their employment system.
3	What data in particular will be shared?	None
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Analytic plan and code can be shared upon request. Sharing can begin from publication date for duration of one year.
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	Documents are available by contacting the corresponding author: dana.watnick@einsteinmed.edu
10	Any other restrictions?	-
