3. Message from the Editor-in-Chief

Dear Colleagues,

I am pleased to announce that the newly released Impact Factor of JGO is 2.1.

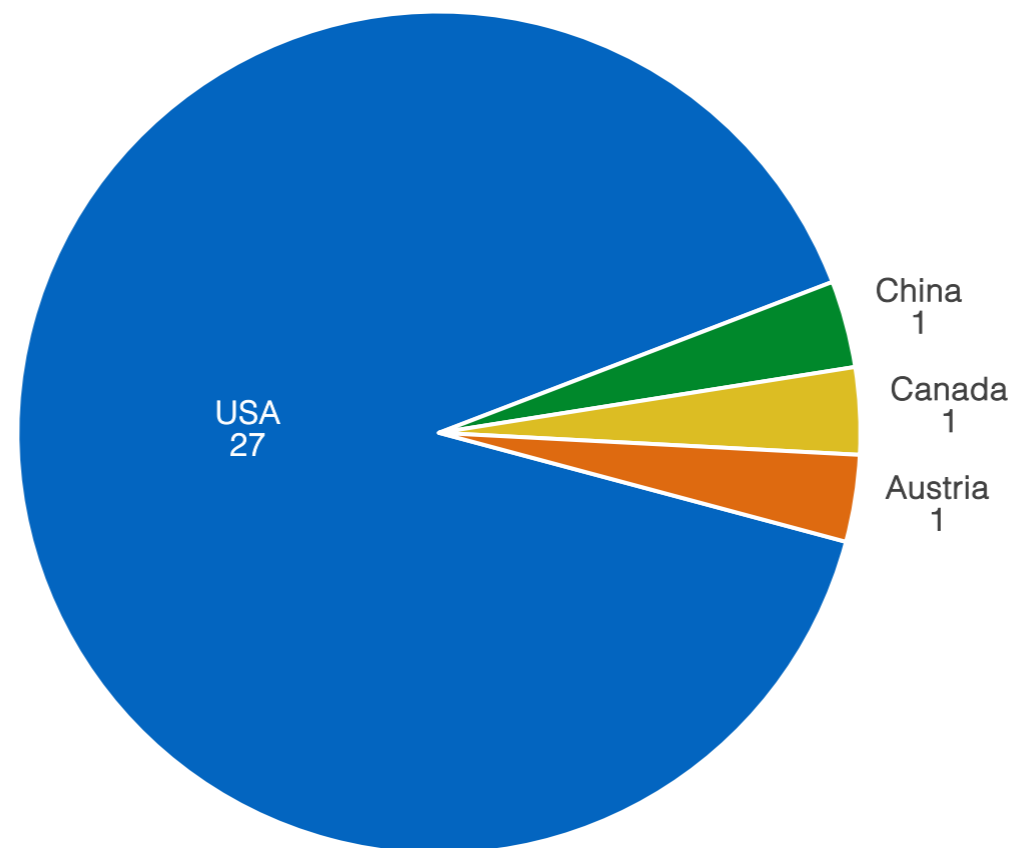

The number of manuscripts submitted increased rapidly and we published 241 articles in the year of 2023. It reflected the rapid acceleration in research on GI oncology. Consequently, the quality of scientific investigations submitted to the JGO markedly improved. The original research articles accounted for 71.4% of all published last year in the JGO.

We are striving to improve all aspects of the JGO from submission and review process, while retaining our commitment to a fair and open access to publications in the JGO. I am grateful to our authors and reviewers for submitting and assuring the high quality of the research being published in our journal.
