

Table S1 Statistical power of each analysis for endothelial markers

	Sepsis vs. ICU controls	Survivors vs. Non-survivors	Septic shock vs. Non-septic shock	Sepsis-induced DIC vs. Non-sepsis-induced DIC
sTM	100%	100%	100%	100%
TAT	100%	100%	30%	92%
PIC	82%	63%	21%	32%
t-PAIC	100%	100%	100%	100%

sTM, soluble thrombomodulin; TAT, thrombin-antithrombin complex; PIC, α 2-plasmin inhibitor-plasmin complex; t-PAIC, tissue plasminogen activator-inhibitor complex.
