

**Figure S1** Risk of bias in the eligible studies. (A) Risk of bias summary. (B) Risk of bias graph.

**Figure S2** Forest plot results. HR, hepatectomy; Sor, sorafenib; TACE, transarterial chemoembolization.

**Table S1** Rank probability of effectiveness

Treatment	Rank 1 (%)	Rank 2 (%)	Rank 3 (%)	Rank 4 (%)	Rank 5 (%)	Rank 6 (%)
HR	0.23	0.32	0.26	0.14	0.05	0.01
HR+TACE	0.14	0.22	0.23	0.24	0.13	0.05
Sor	0	0.01	0.03	0.1	0.46	0.41
Sor + HR	0.13	0.09	0.06	0.08	0.17	0.46
Sor + TACE	0.44	0.18	0.12	0.14	0.08	0.04
TACE	0.06	0.19	0.3	0.3	0.12	0.03

Rank 1 indicates most effective, rank 6 indicates least effective. HR, hepatectomy; Sor, sorafenib; TACE, transarterial chemoembolization.
