

**Figure S1** Effects of PTX and MTX on the cell cycles of MM cell lines. (A) Effects of PTX on the cell cycle of the U266 cell line; (B) effects of MTX on the cell cycle of the U266 cell line; (C) effects of PTX on the cell cycle of the KMS27 cell line; (D) effects of MTX on the cell cycle of the KMS27 cell line. PTX, pralatrexate; MTX, methotrexate; MM, multiple myeloma.
