

Figure S1 OPLS-DA of siBMP5 and siNC groups. (A) OPLS-DA score plot of siBMP5-2 and siNC groups; “T score[1]” and “orthogonal T score[1]” represent principal components 1 and 2, and the ellipse represents the 95% confidence interval. (B) OPLS-DA score plot of siBMP5-3 and siNC groups. (C) OPLS-DA permutation test of siBMP5-2 and siNC groups. (D) OPLS-DA permutation test of siBMP5-3 and siNC groups.
