Table S1 A two-by-two comparison between the AUCs of NLR, SII, NMPLR and CEA

Diagnostic indicators	P value
NLR vs. SII	0.81
NLR vs. NMPLR	0.61
SII vs. NMPLR	>0.99
NLR vs. CEA	<0.001
SII vs. CEA	<0.001
NMPLR vs. CEA	<0.001

AUC, area under the curve; NLR, neutrophil-to-lymphocyte ratio; SII, systemic immunoinflammatory index; NMPLR, neutrophil-monocyte-platelet-to-lymphocyte ratio; CEA, carcinoembryonic antigen.
