

Search terms used in this review

Machine learning	Machine learning, artificial intelligence, supervised learning, unsupervised machine learning, reinforcement learning, pattern recognition, pattern classification, computational intelligence, computer reasoning, machine intelligence, knowledge representation, deep learning, support vector, neural network, nearest neighbor, naive bayes, Bayesian machine learning, artificial intelligence, Bayesian belief network, Bayesian network, decision tree, regression tree, classification tree, random forest, regularized logistic, linear discriminant analysis, language processing, text analysis, gaussian process, least absolute shrinkage selection operator, LASSO, elastic net, relevance vector machine, boosting, extreme learning machines, association mining, association rule, analogy, case based reasoning, long short term memory, genetic algorithm
Medication adherence	Medication adherence, drug adherence, medication nonadherence, medication noncompliance, medication non-adherence, medication persistence, medication compliance, medication non-compliance, drug compliance
