Figure S1 Search strategy in the PubMed database.

Figure S2 Association between prognostic nutritional index and risk of atrial fibrillation in patients undergoing coronary artery bypass surgery. CI, confidence interval; OR, odds ratio.

Figure S3 Association between prognostic nutritional index and risk of postoperative neurologic complication in patients undergoing coronary artery bypass surgery. CI, confidence interval; OR, odds ratio.

Figure S4 Association between prognostic nutritional index and risk of postoperative overall complication in patients undergoing coronary artery bypass surgery. CI, confidence interval; OR, odds ratio.

Figure S5 Association between geriatric nutritional risk index and risk of postoperative acute kidney injury in patients undergoing coronary artery bypass surgery. CI, confidence interval; OR, odds ratio.
