

Figure S1 Kaplan-Meier curves for overall survival in patients with AA ≥45 and <45 mm (P=0.521). AA, ascending aorta.

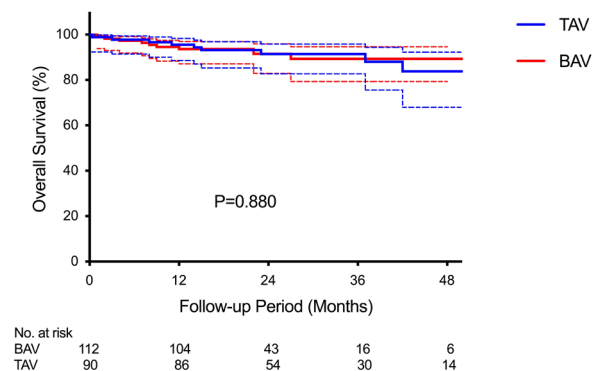

Figure S2 Kaplan-Meier curves for overall survival in patients with BAV and TAV (P=0.880). BAV, bicuspid aortic valve; TAV, tricuspid aortic valve.

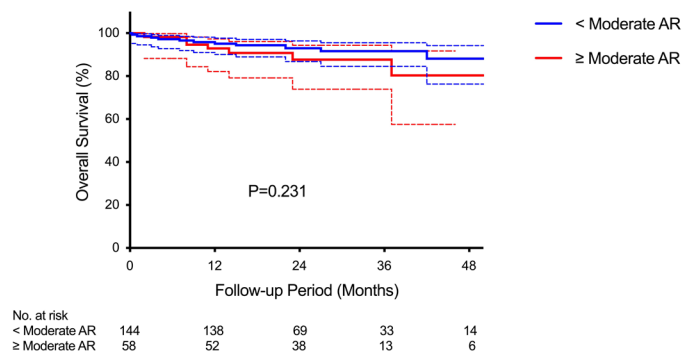

Figure S3 Kaplan-Meier curves for overall survival in patients with ≥ moderate AR and < moderate AR (P=0.321). AR, aortic regurgitation.
