

Figure S1 Distribution of the image quality metrics (the MA, SNR, and CNR). CNR, contrast-to-noise ratio; MA, mean arterial signal intensity attenuation; SNR, signal-to-noise ratio.

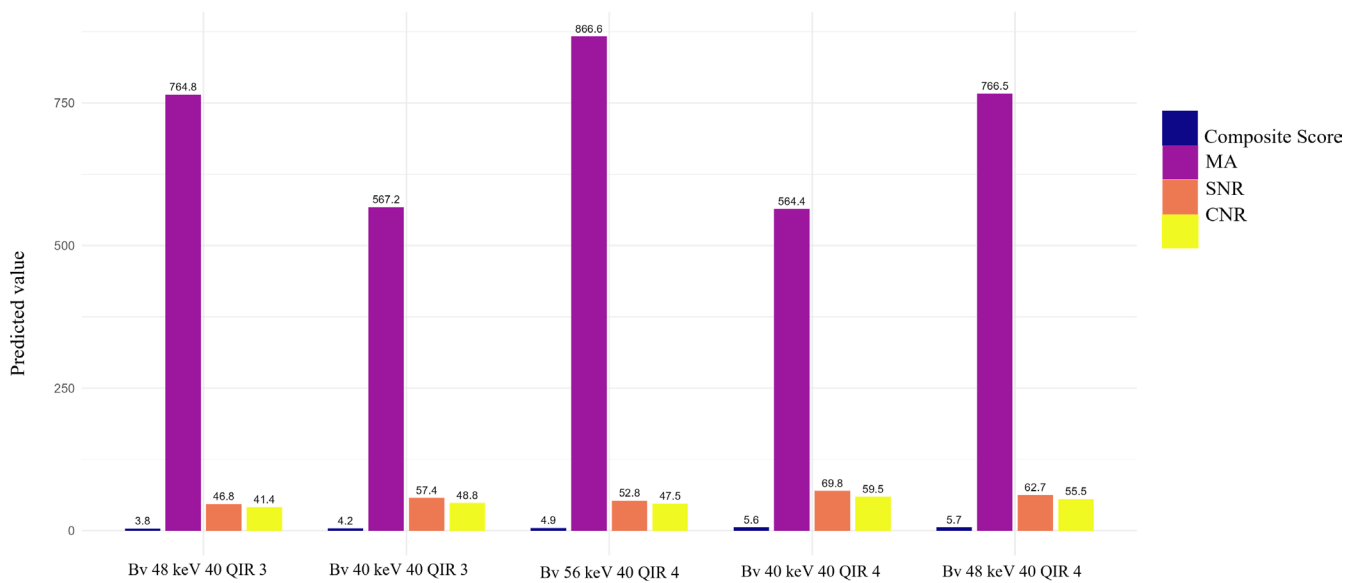

Figure S2 Composite score distribution with the top five parameter combinations. Bv, body vascular convolution; CNR, contrast-to-noise ratio; MA, mean arterial signal intensity attenuation; QIR, quantum iterative reconstruction; SNR, signal-to-noise ratio.
