

Figure S1 Expression profile of SLC25A10 in HCC tissues and cell lines. (A) The grayscale quantification results of the WB analyses in *Figure 1D*; (B) The grayscale quantification results of the WB analyses in *Figure 1E*. WB, western blot.

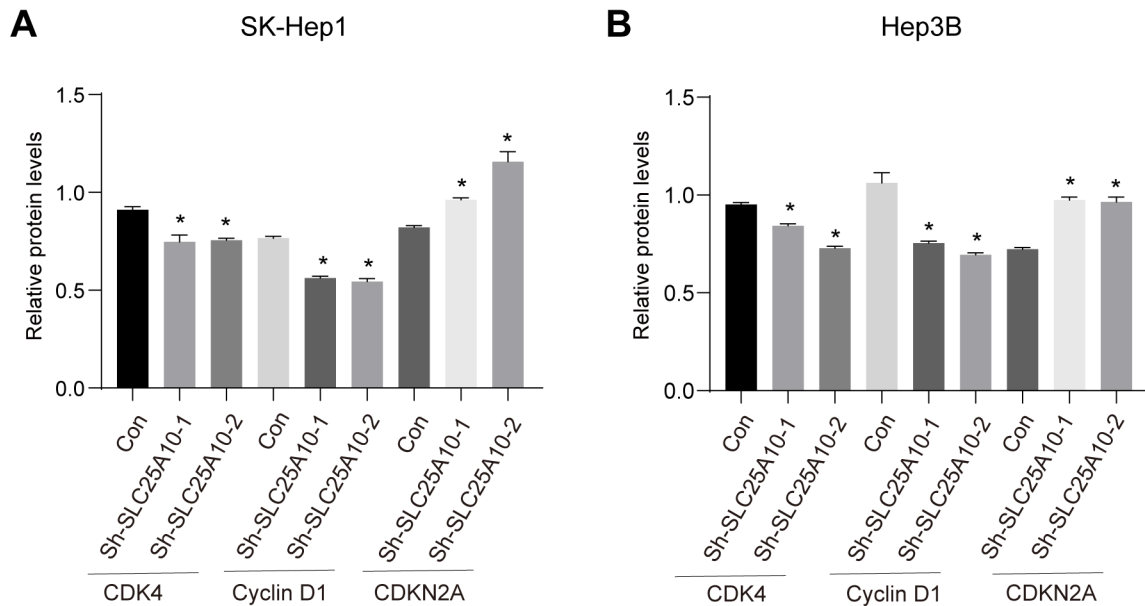

Figure S2 Immunoblot analysis of cell cycle regulatory proteins (CDK4, Cyclin D1, and CDKN2A) in SK-Hep1 (A) and Hep3B cells (B) transfected with or without SLC25A10 shRNA. shRNA, short hairpin RNA.

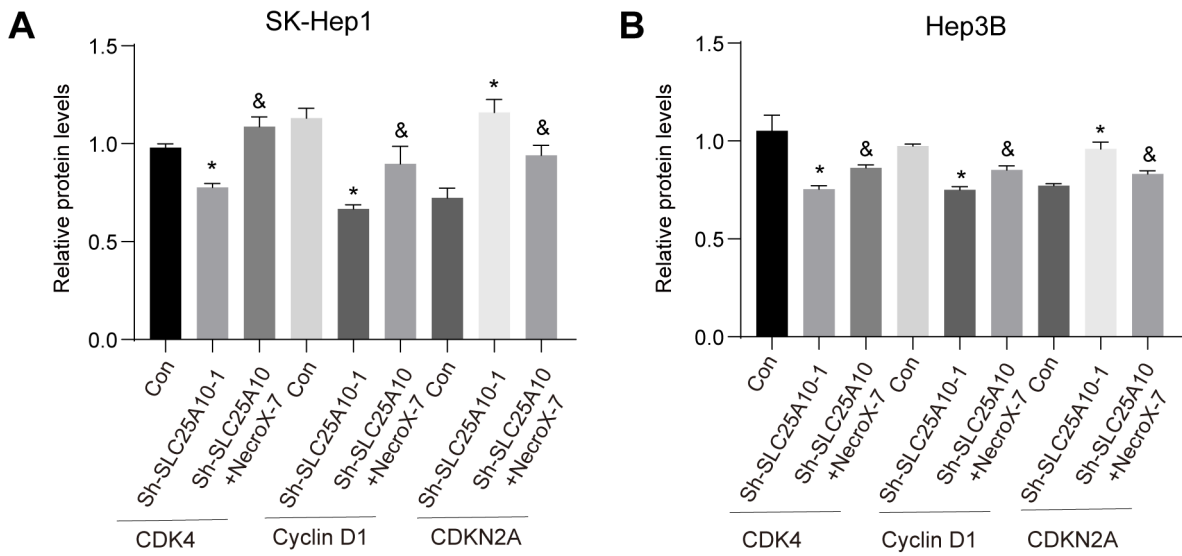

Figure S3 Immunoblot analysis of cell cycle regulatory proteins (CDK4, Cyclin D1, and CDKN2A) in SK-Hep1 (A) and Hep3B cells (B) transfected with control plasmids and sh-SLC25A10-2 plasmids with or without NecroX-7.
