

Figure S1 Effects of *LINC00880* knockdown on Ki-67 and MCM3 protein expression in tumor tissues of BALB/c nude mice. HE and IHC staining of Ki-67 and MCM3 indices was performed on the tumors of the sh-NC and sh-*LINC00880* groups. Scale bar, 100 μm. Images were taken at 10× magnification. HE, hematoxylin and eosin; IHC, immunohistochemistry; NC, negative control; sh, short hairpin RNA.
