

Figure S1 Progression-free survival analysis in Kaplan-Meier plotter database for mRNA levels of ZHX factors in LUAD patients. (A-C) The overall survival curves of ZHX1, ZHX2 and ZHX3 in LUAD patients, respectively. (D-F) The overall survival curves of ZHX1, ZHX2, and ZHX3 in LUSC patients, respectively. LUAD, lung adenocarcinoma; LUSC, lung squamous cell carcinoma; HR, hazard ratio.
