

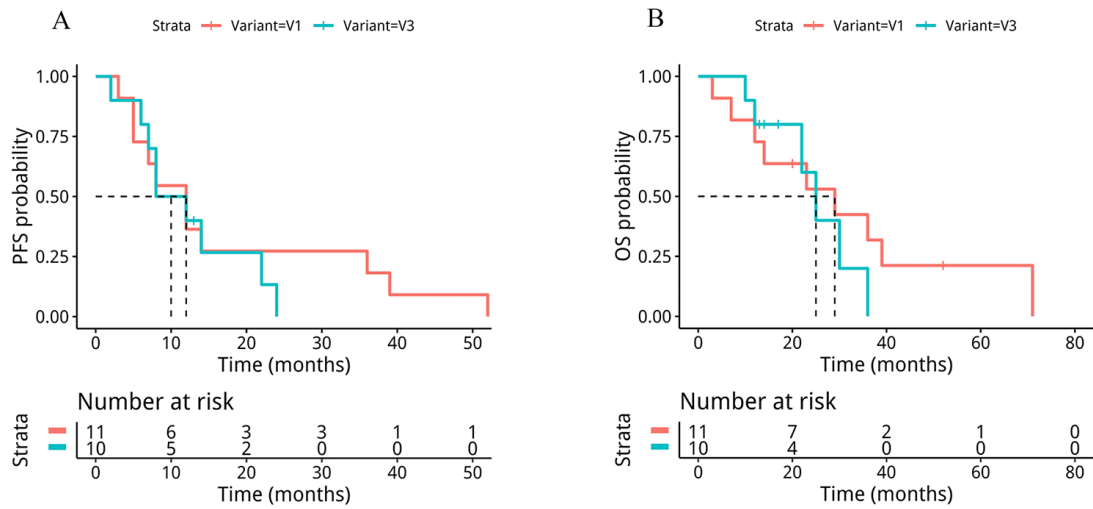

**Figure S2** The correlation of concomitant mutations in variant 1 (V1) or variant 3 (V3) with progression-free survival (PFS) and overall survival (OS) (n=21). (A) Relationship of V1 and V3 mutations with PFS. (B) Relationship of V1 and V3 mutations with OS. The Kaplan-Meier curves show no significant differences between patients with variant 1 mutation and patients with variant 3 mutation in PFS (P=0.47) or OS (P=0.49).

**Figure S1** IHC image of ALK fusion-positive. Positive of ALK expression with original magnification by VENTANA IHC.
