

Abbreviations: LD, Limited Disease; ED, Extensive Disease; PCT, Procalcitonin; MST, Median survival time

Figure S1 Kaplan-Meier survival curve of patients in the PCT-normal and PCT-high groups. The upper panel shows the analysis of LD and ED cases in the discovery cohort separately. The lower panel shows the analysis of LD and ED cases in the discovery cohort separately.

Abbreviations: LD, Limited Disease; ED, Extensive Disease; NSE, Neuron-Specific Enolase; LDH, Lactate Dehydrogenase; MST, Median survival time

Figure S2 Kaplan-Meier curves drawn for each factor with significant differences in the univariate analysis.
