

Figure S1 circ_0087378 overexpression had the most pronounced down-regulation of miR-199a-5p among the five miRNAs. *, $P < 0.05$, **, $P < 0.01$ and ***, $P < 0.001$ vs. con group. Con, control.

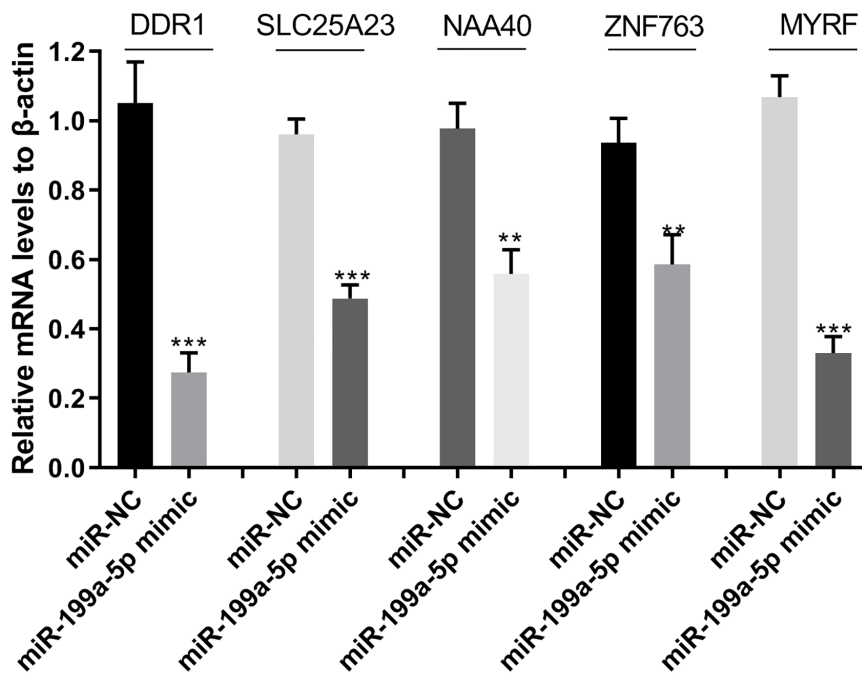

Figure S2 miR-199a-5p overexpression showed the stronger inhibitory effect on DDR1 mRNA expression than on the others. **, $P < 0.01$ and ***, $P < 0.001$ vs. miR-NC group.
