**Figure S1** Analysis of *PPIF*-correlated genes and the PPI network. (A) Visualization of the interaction network of *PPIF*-binding biomolecule based on the BioGRID database. (B) The top 20 genes positively correlated to *PPIF* obtained from the GEPIA2 database. \*\*\*,  $P < 0.001$ . *PPIF*, peptidyl-prolyl isomerase F; PPI, protein-protein interaction; BioGRID, Biological General Repository for Interaction Datasets; GEPIA2, Gene Expression Profiling Interactive Analysis 2.
